From time to time residents contact the Parish Council with thoughts and questions about things going on in our community and some themes recur fairly regularly. So it seems that it might be timely to just update folk on some of the common responses.

If you see something problematic occurring in the village it is great that it is drawn to the attention of neighbours and fellow residents through Facebook and other e-media but if what you see is potentially criminal or anti-social please do report it to the police on their 101 phone line or via their website. They can only respond to things they know about and will often only react if they can identify a pattern of behaviour or cluster of activity. We cannot realistically complain about them not reacting to things if we don’t report it to them.

It is worth stating at this point also that anything to do with highways, footpaths, blocked road drains, fly-tipping and planning matters is the exclusive responsibility of NELC. The Parish Council does have a consultative role in many of these areas but we have no statutory powers of enforcement. We can, and do, report issues we become aware of but if you see something which is in need of repair or attention please do report it on NELC’s Report-it page on their website or on their central phone line. They are usually very good at responding, possibly better than they used to be!

As we move towards Spring it is great to see the snowdrops and daffodils bringing colour back to our village. Can we though take the opportunity to remind homeowners that as the hedges around properties start to fill out again there is often a real risk that they will encroach upon footpaths and restrict ease of passage for pedestrians and increase the risk of accidents. Please keep an eye on your hedges and keep them trimmed back.

Whilst on the issue of hedges etc, a big thank you to Steve Palmer and his helpers who have planted a huge number of trees and shrubs around the village in the past few weeks. The parish council has also committed to purchasing additional shrubs and bulbs for a number of locations and these we will be planting at the appropriate time through the year. Great that these inputs might be they can so easily be undermined by vehicles trashing verges and some dog owners not cleaning up dog poo, maintaining the quality of our environment is a responsibility we all share

Can we also put in a plea for car owners to park considerately. There have been a number of occasions recently when the chicanes created by thoughtless parking have presented real challenges to drivers in regular vehicles, emergency vehicles would surely have found some sections impassable!

WHO’S EYEING UP YOUR HOME?

There have been a recent spate of dwelling burglaries in healing.

Homes with no security measures are five times more likely to be burgled than those with simple security measures. Good window locks and strong deadlocks can make a big difference.

Become a creature of habit.

Here is what we recommend:

- Close and lock all your doors and windows, even if you are only going out for a few minutes.
- Make sure that any valuables are out of sight.
- Keep handbags away from the letterbox or cat flap and hide all keys including car keys, as a thief could hook keys or valuables through even a small opening.
- Never leave car documents or ID in obvious places such as kitchens or hallways.
- In the evening shut the curtains and leave lights on.
- Set your burglar alarm.
- Make sure your side gate is locked.
• Lock your shed or garage.
• Lock your bike inside a secure shed or garage to a robust fitting bolted to the ground or wall
• Install good outside lighting
• Take photographs and keep documents for your valuables. This will help us identify stolen goods and making it harder for thieves to sell.
• Trusted neighbours may be able to help you by collecting your post, opening and closing curtains and they could park their car on your driveway.
• Avoid discussing holiday plans on public social media sites – burglars can use any information you post to their advantage.

If you have any information or to report an incident, please telephone 101. In an emergency telephone 999.

**VIEW FROM THE PEW**

Last December, I spent a week at a Silent Retreat Centre. St. Beuno’s in North Wales is a Jesuit Spirituality Centre which we had first heard about in a BBC documentary a number of years ago where five ‘ordinary’ people were dropped into St. Beuno’s for nine days of silence. The documentary (called ‘The Big Silence’) recorded the changing outlook and emotions of these participants as they immersed themselves in the silence.

The instigator of that spiritual experiment, Abbot Christopher Jamison, asserted that ‘silence is the gateway to the soul, and the soul is the gateway to God’.

Having watched and enjoyed ‘The Big Silence’, I wanted to explore Abbot Jamison’s conviction for myself. Spending a week in silence in a Catholic spirituality centre was outside of my normal routine, certainly, but it was a time of clarity. I liken it to seeing the stars; on a dark, clear night, can you see the stars when you are standing in the middle of Grimsby? Yes, but you know that if you really want to see the stars, you would go somewhere out in the middle of nowhere where there is no light pollution. Likewise, can God speak to us in the middle of our shopping trip to Asda or in the busy-ness of our lives? Yes, but his quiet promptings might be more discernible in a quiet, still environment. That doesn’t necessarily mean a trip to St. Beuno’s, but this was my determined effort to go somewhere quiet. Very quiet.

While there, I found a prayer from the Lindisfarne Community which really spoke to me and has become my key resolution for this year:

“Lord, help me to know that the secret of contentment lies in organising the self in the direction of simplicity.”

Complexity and clutter in life lead to distraction and dusting; we live in an age where it is a badge of honour to be busy ... too busy. I felt in my life that I need to actively and intentionally streamline my activity, aspiring to be less fragment-ed, fraught and frantic. It’s perfectly in harmony with the message and lifestyle of Jesus. How might you look to organise your ‘self’ in the direction of simplic-ity?
